**DANIEL BRESLIN OF SALEM RECIPIENT OF THE
PSEG GREEN SCHOLARSHIP PROGRAM FROM THE
NJAC FOUNDATION**

(SALEM, NJ) – Freeholder Julie A. Acton, Chair of the Public Services Committee, and Freeholder Beth E. Timberman, President of the New Jersey Association of Counties (NJAC) today announced that Daniel Breslin of Salem is the recipient of the PSEG Green Scholarship Program.

“We congratulate Daniel for his accomplishments and dedication to earn this well-deserved scholarship,” said Freeholder Julie Acton.

Through its Green Scholarship Program, PSEG awarded the NJAC Foundation a grant of \$10,000 for county vocational school graduates who plan to study environmental sciences, green design, green technology, alternative energy, or other related subjects at a county or state college. The Foundation distributed one \$550.00 grant in each county where PSEG maintains a service territory or generation facility.

“We are very grateful to PSEG for their generosity and commitment to our communities,” said Freeholder Beth Timberman.

Breslin is a graduate in the Salem County Vocational Technical’s Academy for Energy Applications. He was enrolled in this academy for four years taking a concentration of courses in nuclear and sustainable energy. In his junior year he interned with the Salem County Improvement Authority. Through this internship he developed a plan to improve recycling measures for the school district and was acknowledged for his efforts by the Board of Education and the Salem County Board of Chosen Freeholders. He will continue his studies in nuclear energy next year at Salem Community College.

The NJAC Foundation is a non-profit organization affiliated with the New Jersey Association of Counties and is committed to providing innovative educational opportunities for county vocational school and county college students.
